# News Release

## New appointment strengthens distribution channel across EMEA

Murata Power Solutions has strengthened its sales team with the appointment of Andreas Hanausek as Distribution Account Manager, EMEA. Andreas will work closely with the company's distribution partners across the region to support new and existing customer requirements.

An Austrian national and originally from Vienna, Andreas will be based from Murata Power Solution's facility in Milton Keynes, UK. He has extensive experience in electronics sector sales and distribution backed by qualifications in both electronic engineering and economics.

Prior to taking up his new position, Andreas was a Product Line Manager with Lexedis, an LED manufacturer. Before that he spent several years in sales and product management roles for Codico, the respected Austrian distributor of passive and active components, connectors and power supplies.

Commenting on the new appointment, Andy Barber, EMEA Distribution Manager, Murata Power Solutions, said: "I am delighted to welcome Andreas to our team; he brings with him excellent experience and knowledge of both the electronics market and the distribution channel. His technical background will prove invaluable in helping him understand and meet the needs of our customers, and I am sure that his skills will enable us to further strengthen our position in the power sector across EMEA."

## **About Murata Power Solutions**

Murata Power Solutions, ([www.murata-ps.com](http://www.murata-ps.com)) formerly known as the Power Electronics Division of C&D Technologies, is headquartered in Mansfield, Massachusetts, with over 1,300 employees, and locations in the USA, Canada, Mexico, England, France, Germany, Tokyo and China. Murata Power Solutions designs, manufactures and distributes DC/DC Converters, AC/DC Power Supplies, Magnetics, Data Acquisition devices and Panel Meters, and offers these products in custom, standard and modified-standard variations. These products, which are built to exacting requirements in ISO9000:2000-approved facilities, are typically used worldwide within telecommunications, computing, industrial and other high-tech applications

## **About Murata**
